

Secure Data

The only single door NT tested cabinet on the market

Certified to NT Fire 017 120DIS

• **120 minutes datamedia protection**

Are you a photographer, designer or an IT Manager looking for a high quality datamedia safe but limited by budget? Well look no further than the Secure Data from SecureLine. This fire-resistant safe provides an extensive number of key features for a low price. Exclusive NT testing and certification ensures 120 minutes fire protection. Additional benefits include a multi-seal system, extensive capacity, high security electronic and key locking options and a choice of five sizes. The Secure Data can also be customised with fittings to meet your configuration needs. With all these features, it is no surprise that many users are choosing the Secure Data as "the datamedia safe to own"...

Models

- Available in five sizes – to suit most needs
- Volumes ranging from 45 to 200 litres

Locking

- Locks certified by ECB.S to EN 1300 Class A
- Secured by double bitting key lock or electronic lock as standard

Certification

- Certified to NT Fire 017 120DIS – effective protection for all computer media for two hours
- Interior temperature remained below 50°C during testing
- Furnace temperature reached 1049°C during testing
- Swedish manufactured in a ISO 9001 controlled environment

Construction

- Single door operation – for ease of use
- "Slam shut" closure – for immediate protection
- Unique single layer protective barrier – maximises storage volumes
- Up to 50% lighter than other cabinets in the market place when comparing storage capacities
- Multi-seal system provides resistance against water, moisture and gases
- Supplied in a light grey finish

Fittings

- Supplied with adjustable fittings as standard (models vary)
- Drawers supplied with internal dividers
- Additional shelves and drawers available
